One Ear Crosstie Browband

Matching Reins,
Split or Roping

The finest hitching over quality leather combine to make truly unique and durable products for your horse. Not just for show, these headstalls are durable enough for everyday use. The integrity of the leather is not interrupted by sewn-in sections, rather the hitching, is crafted over the leather for superb strength and wear-ability. First choose among one of the three styles below: the One Ear, Crosstie, or Browband. Then choose from the patterns, or choose from our hitched belt pattern on pages 11 and 12.

A full 1 ½" wide braided belt, our braid is the tightest, our leather is the finest.

No plastic imitations here, our belts are still hand braided from 100% genuine horsehair. Compare our quality to all the other late comers in the business and you'll see why we're "the Original and Still the Best!" Choose from either the traditional straight billet for trophy buckles or our tapered 1" billet—made for the ever increasingly popular 1" buckle sets.

Ordering checklist:

In order to make sure you get the belt you have in mind, follow the checklist:

1. Pattern: Choose the pattern number beside the photo
2. Billet Color: Match the color of the leather billet to the pattern you want. Offered in black, brown, or saddle tan.
3. Billet Width: Specify whether you want a straight billet (1 ½") wide or tapered to 1". See photo below.
4. Billet Texture: Pick either traditional stamped basket weave or smooth leather.
5. Sizes: Measure in inches, from the leather fold of the buckle end (do not include the buckle) to the middle hole—that length, in inches is the size.

Hitched Belts

HANDMADE 100% GENUINE HORSEHAIR

1 800 595-2644

Colorado Horsehair offers you the world's finest belts made specifically for you. Please help us make sure you receive the belt you want by using the following checklist:

1. Choose from the pattern sheets here and on the next page. Note pattern letter or name.
2. Decide if you want a wide or narrow belt. Traditional is 1 3/8" wide, Narrow is 1" wide.
3. Pick the color of leather billet: Black, Brown, or Saddle Tan.
4. Choose the billet width. Straight (1 1/2" wide) for trophy buckles and large western buckles, or tapered (to 1" wide) for the 3-piece sets that are so popular today.
5. Choose one of three billet textures: Hand Tooled Floral, Hand Tooled Classic Basket Weave, or Smooth.
6. Now, decide on one of three buckles: the Display buckle (no charge), 3-piece 1" buckle (optional), or the Floral Engraved buckle (optional).
7. Finally and most importantly, make sure of the size. If it is for a client, take their favorite belt and lay it on the table. Starting at the buckle end, simply measure from the fold to whatever hole is most often used. This distance in inches is the size.

For example, when ordering say: Pattern F, straight billet, brown, floral tooling.

Hand hitching horsehair is a tradition dating back for hundreds of years—cowboys in the American west and horsemen around the world whiled away the night time hours, hitching by fire. Considered the purest of hand woven art forms, no tools or looms are used to produce these intricate and unique designs. Colorado Horsehair has continued this tradition for the past 20 years. Every belt is hand made from 100% genuine horsehair requiring 9 days of slow, steady hitching around a wooden dowel rod. But that's only the start. The result is a hitched 'tube' that is then placed in a heated press for 3 more days to permanently flatten the hair. Finally, a hand tooled leather billet is sewn over the ends. It's no wonder they're sometimes referred to as Heritage Belts.
